At this time community demographic information, reflecting households in the school zone, is available only through Census data which is not updated frequently enough to accurately reflect the dynamics of our urban district.

The information provided here was compiled in a manner designed to meet school instructional planning needs and will differ from state figures used for AYP evaluation. For example, TCAP results do not include Portfolio Assessment results.

Enrollment figures are based on enrollment at the end of the school year.

Suspension data and school attendance are based on reporting site.

Due to dramatic changes in state academic standards, 2009-2010 and later TCAP Achievement and TCAP EOC results cannot be directly compared to those of previous years.

TCAP test scores based upon 7 or fewer students have been left blank intentionally to protect student privacy.
