In general, enrollment and performance figures are based on the student's location at the end of the school year.

Suspension data and school attendance are based on the reporting site.

TCAP results are based on test location, except for Gateway results where students are credited towards their enrolled high school if they took the exam in middle school.

TCAP results include all students tested, regardless of NCLB exclusionary criteria, but do not include portfolio results.

TCAP test scores with 7 or fewer students have been left blank intentionally to protect student privacy.
